

# ORIGAMI for Early Years, Primary, Parents and Families

## Join the “Happy Origami Club” to enjoy first origami

At “Happy Origami Club” we aim to exclusively sell our products toward educational sector for creative learning. The adequate educational institutions are Nurseries, Pre-School and Playgroups. However, our products can be used for older years as well as be used at home. Unlike the wholesale system for retailers, “Happy Origami Club” has a unique mechanism that allows guardians to purchase our product through institutions mentioned above. The minimum duration of subscription is six months

Created by Mari Ono,  
award winner of the Best  
Children’s Craft Book of  
Homemaker magazine

with minimum order of 10 sets.

For every month we will send ten or more sets of one type of origami set in order for the buyers to experience all our line-up of products. The applied institutions will have exclusive access to unique technique guide, “Easy Play Origami!”, through HAPPY ORIGAMI Ltd. website that will have visual aid on how to use and play with Origamis during lesson times. We aim to support school and nursery teachers to plan the use of our product as a tool for creative learning through lessons.

From just £24.00 for 6 months (£4.00 each set x 6 month) buy can experience 6 types of origami sets and exclusive access to “Easy Play Origami!” tutorials for classroom activity.

### Why made in Japan?

Japan is the birthplace of Origami culture. For centuries origami has been used for early education purpose, encouraging children's brain development, through joys of art.

To emulate the authentic art of origami, our products are produced by professionals who has made origami as a school teaching material for more than 75 years. All products are safety checked and approved by the Japanese food inspection. All specially produced origamis are uniquely thin with immaculate finish for simple ergonomics, easy to fold, and brilliant aesthetic, designs that will bring joys to all children.

Our aim is to deliver wonderful educational culture of Japan and authentic origami to the world.
